Informatics Engineering graduate from Trilogi University (GPA 3.82/4.00) with hands-on experience in web development using Laravel, React, FilamentPHP, and Firebase. Experienced in building inventory, case-tracking, and construction monitoring systems, with additional skills in system analysis, business process mapping, and UI/UX design.

WORK EXPERIENCE

SISMOKAP – Sistem Informasi Monitoring Progress Konstruksi

Jakarta, Indonesia

FullStack Web Developer | Laravel 11, Supabase

Jul 2026 - Present

- Built a web application to monitor construction progress across multiple project sites for an institutional/military client (Denzibang 3/V Madiun).
- Implemented multi-role authentication (Admin, Operator, Pimpinan), interactive dashboards with charts, photo documentation, and automatic progress percentage calculation.
- Developed automated PDF/Excel report generation and deployed the system on Vercel using Laravel 11 with Supabase (PostgreSQL) and Supabase Storage.

Paldam Jaya – Sistem Informasi Data Materiil Senjata

Jakarta, Indonesia

Web Developer | Laravel | React JS, Tailwind CSS, Ngrok

Jun 2026 - Present

- Built a web-based inventory management platform for military weapons materiel with per-unit (kesatuan) authentication.
- Developed weapons data input, automatic quantity recap by weapon type, and condition tracking (Minor/Major Damage).
- Implemented automatic A4-format report generation and printing.

Kumdam XVII Cendrawasih – Sistem Informasi Data Perkara

Jakarta, Indonesia

FullStack Web Developer | React JS, Vite, Firebase

Jun 2026 – Aug 2026

- Developed a web application to manage case (perkara) data for personnel and units using React, Vite, and Firebase.
- Built case data recap and case input features for structured record-keeping.
- Implemented integrated data visualization to support case monitoring and reporting.

Maria Salon – Landing Page

Jakarta, Indonesia

Front-End Developer | React, Tailwind CSS

Apr 2026 – Aug 2026

- Built the landing page for Salon Maria, a premium beauty salon in Sunter North Jakarta, using React and Tailwind CSS.
- Designed an elegant, responsive, and fast-performing website.
- Integrated the Xendit payment gateway for secure online booking payments and an interactive Google Maps location for easy customers access.

Wahana Express

Jakarta, Indonesia

IT Support

Dec 2021 - Mar 2022

- Provided Level-1 technical support for branch staff by troubleshooting hardware, software, and local network issues to reduce operational downtime.
- Configured, installed, and maintained office PCs, thermal printers, and barcode scanners used in daily logistics operations.
- Assisted user account management, system access permissions, helpdesk tickets, and routine operating system/application maintenance.

INTERNSHIP

BPJS Ketenagakerjaan

Jakarta, Indonesia

Strategic Planner

Oct 2025 - Jan 2026

- Mapped Level 1-3 business processes for the Membership Directorate, including Supervision, Warsik Management, and Regional Operations, using Draw.io standards.
- Documented Level 4 JMO and Non-JMO overpayment and erroneous payment processes to support standardized process governance.

- Conducted Quality Control (QC) and Customer Satisfaction Index (CSI) analysis across 26 BPJAMSOSTEK units to support service quality evaluation.
- Designed the Insanova Idea & Innovation Management interface in Figma and implemented web features using the Laravel framework.
- Created educational and internal communication assets, including fraud-prevention posters, BPJS anniversary video concepts, and the Insanova 2025 book design.

Trilogi University

Jakarta, Indonesia

Assistant Lecturer - Computer Network Systems Practicum

Sep 2025 - Jan 2026

- Assisted lecturers in delivering Computer Network Systems Practicum materials for more than 42 students across 16 learning sessions.
- Organized students into practicum groups and guided them in understanding weekly materials, assignments, and final exam preparation.
- Assessed weekly assignments and monitored student learning progress throughout the semester.

Bank Indonesia

Jakarta, Indonesia

Public Engagement & Content Staff

Sep 2025

- Educated participants at the 2025 World Muslim Scout Jambore on the “Love, Pride, and Understanding the Rupiah” campaign.
- Supported booth operations, participant registration, expense recording, quiz participation, waqf donation flow, and interview-based content creation.

Direktorat Jenderal Kekayaan Negara

Jakarta, Indonesia

System Analyst

Jul 2024 - Jan 2025

- Identified stakeholders and mapped Input, Process, and Output (IPO) flows for DJKN, SIMAN, and Tax-related modules.
- Prepared stakeholder and business process documentation in Google Drive using a color-coded collaboration system for accurate team coordination.
- Analyzed and designed requirements for Chatbot/Live Chat, UJPL return notifications, and WhatsApp/email notification settings.
- Developed Frequently Asked Questions (FAQ) documentation to support public users of DJKN features on the lelang.go.id platform.

SELECTED LEADERSHIP & PROJECTS

Informatics Engineering Student Association, Trilogi University

Jakarta, Indonesia

Committee Member, Speaker, and Event Lead

2022 - Present

- Led the T-EXPO Cyber Security event, “The Human Firewall,” and delivered Android Programming material for “Kickstart Your Android Journey.”
- Prepared design materials, learning materials, and rundown documentation for the 2024 Technical Camp event.

GenBI Jakarta

Jakarta, Indonesia

Curriculum Coordinator - Community Education

Nov 2024 - Jul 2025

- Coordinated curriculum planning across Economics, Education, and Tourism sub-divisions for community education activities.
- Prepared resource-person materials, assigned PIC representatives, designed an A3 poster, and developed the Seribu Islands creative economy training theme.

Google Developer Student Clubs, Trilogi University

Jakarta, Indonesia

Weekly Developer Class Speaker & Event Division Lead

Oct 2022 - Aug 2024

- Facilitated the “Intro to GitHub & Bash Shell on Linux” class and hosted multiple GDSC community events.
- Led the Company Visit division to MNC Studio and participated in the 2023 Google Solution Challenge with the Sikusubajat Team.
